

# GEOSPATIAL INTELLIGENCE FOR THE GLOBAL COFFEE SUPPLY CHAIN

TRANSFORMING COFFEE MARKET FORECASTING WITH  
SATELLITE-DRIVEN ANALYTICS

## WHAT WE DELIVER

### COMMODITY FOCUS

Coffee Arabica with expansion capability across Robusta production.

### GLOBAL COVERAGE

Tracking across 40+ producing countries, integrating satellite observations, climate models and proprietary risk indicators.

### FORECAST HORIZONS

Actionable up to 6-month forward forecasts that quantify futures price, climate risk and regional volatility.

## WHY IT MATTERS

### UNLOCK MARKET ADVANTAGE

- Anticipate futures price shifts and confidence.
- Identify climate-driven disruptions before they impact supply chains.
- Quantify yield variability to support trade strategies & procurement planning.

### STRATEGIC OPPORTUNITY

As climate volatility increases, agricultural markets face rising uncertainty.
